

Indiana DSL Modem Coverage

November, 2002

This map was developed by the **Technology Policy Group** at the **Fisher College of Business, The Ohio State University** for the **Indiana Interconnect** project sponsored by the **Indiana Department of Commerce**. This data is harvested from numerous public and private sources and been validated by telecommunications and cable providers representing substantially all service provided through xDSL and cable modems as of January 2003. Data is collected on a standard GIS platform and is available for more detailed analysis.
